

About

Learning with CILT International gives transport logistics and supply chain learners a strong head start in their career development. With five levels of qualifications available from school-leaver to graduate level, learning with CILT can take place flexibly and at your own pace. Our qualifications are recognized globally and will enable you to progress your career as you work your way through each level.

Objective

The CILT International Diploma in Logistics and Transport is a freestanding qualification, designed to provide a sound foundation for a career within the transport and supply chain fields and should provide supervisors, first-line managers and potential middle managers with a complete set of management and operational skills. The CILT International Diploma follows on from and builds on the general knowledge gained both in the CILT International Introductory Certificate and the Certificate courses and provides more in-depth information on the core business subjects and specialist areas relating to logistics and transport.
